PROFESSIONAL EXPERIENCE

Sales Specialist & Business Development 03/2025 - 01/2026
ChenYang Technologies, Erding, Germany

- Manage business relationships with 50+ national and international B2B clients through after-sales services
- Acquire 20+ new clients with digital marketing and proactive advisory on technical and operational questions
- Create, maintain and archive quotations, sales confirmations and invoices with attention to details
- Coordinate order status actively with clients and logistics partners
- Carry out custom clearance using ATLAS for cross-border transactions
- Supported in brand development, including the creation of blog posts on the website and LinkedIn
- Develop automated solutions for order processing, invoicing and inventory tracking using ERP systems and Excel VBA tools

Supply Chain Consultant (Working Student) 08/2023 - 01/2024
Total Supply, Munich, Germany

- Conducted demand forecasting and capacity gap analysis for BMW Group's EV battery supply chain (200,000+ vehicles p.a.)
- Researched supply chain digitalization opportunities based on analyzing market trend in cloud service and attending conference, created presentation used in a workshop with the client
- Built VBA automation tool for unstructured data transformation, reducing manual processing time by 60%
- Analyzed weak points in supply network for next-generation EV batteries and proposed indices for early risk detection through using macroeconomic data and applying simulation methods

Risk Controlling (Internship) 09/2022 - 03/2023
BMW Group, Munich, Germany

- Monitored risk performance across 40+ international markets through monthly risk reporting covering credit risks, residual value risks and operational risks and identifying early warning indicators for deteriorating risks
- Analyzed macro/microeconomic conditions in assigned countries and their impact on credit risk metrics; prepared country risk assessments integrating political, economic, and market developments
- Presented credit risk analyses to senior management and communicated proactively with international stakeholders to ensure data quality and reporting consistency
- Automated risk calculation processes using VBA, improving analysis efficiency by over 50%
- Assisted in transition of BI from Excel to Tableau by implementing data cleansing and KPI calculation

Financial Controller 06/2019 - 04/2020
Guangdong Nuoxia Construction Group Co., Ltd, Guangzhou, China

- Prepared credit documentation and loan applications for banks; successfully secured debt financing of €1.8 million
- Conducted monthly financial reporting and liquidity planning to ensure creditworthiness and debt service capacity
- Served as liaison with banking partners, understanding lender requirements and credit assessment processes

Senior Auditor, TMT Sector 10/2016 - 04/2019
PricewaterhouseCoopers Zhongtian LLP, Beijing

- Conducted statutory auditing and financial due diligence for clients and transactions including Xiaomi IPO ($38.9bn) and pre-IPO readiness reviews
- Analyzed financial statements, credit reports, and financial data for 20+ publicly listed and pre-IPO companies to evaluate financial stability, cash flow adequacy, and debt-servicing capacity
- Performed comprehensive ratio analysis to assess credit risk and financial health
- Evaluated financing structures and risk management systems under IFRS, US GAAP, and China GAAP
- Assessed dynamics in TMT sector to determine impact of market trends on corporate borrowers' creditworthiness
- Led audit teams and presented findings to client management and Audit Committees
